FORMATS: Thin Veneer, Building Stone, Wall Stone

USES

Interior and exterior adhered veneer, including house fronts, commercial facades, foundations, columns, outdoor kitchens, backsplashes, chimneys, fireplaces, and surrounds.

FEATURES & BENEFITS

Alverson Ashlar offers the same beauty and solid finished look as the building stone, but with the appeal of efficient and lightweight installation. It is crafted from natural limestone and will blend beautifully with locally found limestone.

Alverson Ashlar can be installed below grade and does not usually require footers or additional support. Check with local building codes before installing material. It is an easy stone to work with, is absorbent and lightweight, and adheres well.

The information contained in this document is provided to explain the most commonly asked questions about stone and its uses. This document serves as a general guideline and the information provided within is not meant for exact structural specifications.
