CHARACTERISTICS

ORIGIN: United States

GEOLOGY: Quartz with Fine Mica

COLOR RANGE: Black, Rust

DIMENSIONS: Piece size varies average:
Face – 8”x8” - 14”x14”
Thickness – 1.25”

WEIGHT: ≤15 lbs/SF based on 1¼” thickness.

COVERAGE: Flats available in 50SF, 100SF, and 150SF boxes. Corners available in 25LF and 50LF boxes. Coverage based on ½” mortar joint.

USES

Interior and exterior adhered veneer, including house fronts, commercial facades, foundations, columns, outdoor kitchens, backsplashes, shower walls, chimneys, fireplaces, and surrounds.

FEATURES & BENEFITS

Southern Eclipse is a high density natural thin product that is black to pitch-black with a smooth face and a high concentration of fine mica with some rust tones on edge. This stone is cut roughly into random irregular shapes with minimally sawed edges to create a classic look.

Southern Eclipse Mosaic can be installed below grade and usually requires no footers or additional support. Check with local building codes before installing material. It is an easy stone to work with, is lightweight, and adheres well.
